Hospital Stores Management

An Integrated Approach

The only book available on the subject. It explores exhaustively and comprehensively stores management in health care institutions. It dwells on both micro and macro levels of materials management from acquisition of stores to their disposition. The theoretical and practical aspects of the subject have been discussed in an integrated manner for ready reference and operative functionality. Emerging trends like MUSIC-3D, automation in stores, e-commerce, UCP-500, stockless purchasing have been dealt with in depth. Latest guidelines and policies of Central Vigilance Commission, DGHS and Import-Export have been incorporated. The provisions and applications of statutory enactments like The Arbitration and Reconciliation Act-1996, The Info-Technological Bill-1999 have also been encompassed.

Dr. Shakti Gupta is an Associate Professor in the Deptt. of Hospital Administration, AIIMS. He did his MBBS from Govt. Medical College, Jammu and obtained his MHA degree from AIIMS. He is a Research Guide and examiner for post graduate and Ph.D Courses in Hospital Administration, Editor of the Journal of Academy of Hospital Administration, a member of the BIS, a Faculty Resource and Consultant at various health care institutions in India and abroad. A recipient of WHO fellowship of USA. Dr. Shakti Gupta represented the country in the East West meeting on Telemedicine sponsored by APO Japan and conducted at Hawaii, USA. He was invited to participate in "Health Management Programme" for chief executives from Asia Pacific organised by National University of Singapore at Singapore. He has also authored another popular book with Dr. Sunil Kant titled "Hospital and Health Care Administration – Appraisal and Referral Treatise".

Dr.(Lt.Col.) Sunil Kant, a recipient of National Scholarship of Govt. of India did his MBBS from AFMC, Pune. He obtained his MBA degree with honours from Gwalior University and MHA degree from AIIMS.
